

The STRATA Plank collection by Woodzco is a refined architectural wood veneer plank system designed to bring depth, rhythm, and material authenticity to interior spaces. Focused purely on architectural expression, STRATA Plank enhances walls and ceilings with clean lines and a strong linear presence.

With one (1) possible configuration and four (4) standard wood veneer species available in 8-foot length, this collection is designed to meet the needs of the most demanding creative projects.

Manufactured in Canada to the highest industry standards, with a strong commitment to acoustic performance and tailor-made solutions.

#### Key features

- » An ideal choice for residential, commercial, and institutional projects
- » Rigid planks engineered for simplified on-site installation
- » Designed for interior installation on walls and ceilings
- » Four standard species of wood veneer
- » Customization available for all components

CAN/ULC S102 FSI < 25 SDI < 50  
ASTM E-84 CLASS A

### Plank length

Available in one (1) standard length (L): 95" (8). Also Available in 107" (9) & 119" (10), certain conditions apply.

**Disclaimer:** A single sample may not accurately represent the full range of natural variations that can be expected. Due to the inherent properties and characteristics of wood, these samples should be considered an approximation of the effect that may be achieved. Some wood species exhibit greater natural appearance variations than others. We have made every effort to make the colors as accurate as possible. Please allow a tolerance of 1/16" in the actual dimensions of all our products. Due to continual product improvement, the information contained in this document is subject to change without notice. Woodzco assumes no responsibility for any errors or omissions that may have occurred inadvertently in this document.
