

The WOOD COMPONENT collection by Woodzco, crafted in genuine wood veneer, offers refined architectural moldings designed to complete and elevate interior spaces.

From baseboards to door casings and custom trim elements, these components ensure material continuity and aesthetic coherence across walls and architectural features. Precision-manufactured and available in various profiles and finishes, the collection integrates seamlessly into contemporary projects while maintaining the quality and craftsmanship that define Woodzco.

With two (2) possible configurations and four (4) standard wood veneer species available in 8-foot length, this collection allows seamless integration into custom architectural designs while maintaining the highest standards of quality and craftsmanship.

Manufactured in Canada to the highest industry standards, with a strong commitment to acoustic performance and tailor-made solutions.

### Key features

- » Quick and easy-to-install rigid decorative architectural wood moldings
- » Designed for interior installation on walls, ceilings and custom-made furniture
- » Four standard wood veneer species
- » Two configurations to choose from that can be used with other Woodzco collections

CAN/ULC S102 | FSI < 25 | SDI < 50  
ASTM E-84 | CLASS A

Available in only one (1) standard length (L): 95" (8)

**Disclaimer:** A single sample may not accurately represent the full range of natural variations that can be expected. Due to the inherent properties and characteristics of wood, these samples should be considered an approximation of the effect that may be achieved. Some wood species exhibit greater natural appearance variations than others. We have made every effort to make the colors as accurate as possible. Please allow a tolerance of 1/16" in the actual dimensions of all our products. Due to continual product improvement, the information contained in this document is subject to change without notice. Woodzco assumes no responsibility for any errors or omissions that may have occurred inadvertently in this document.
